## Bingo

## Preparing the game:

1. Print game on printer paper or cardstock
2. Cut along dotted lines to separate draw tokens and card markers

## Playing the game:

1. Each player chooses a bingo card and several card markers (you can use the provided card markers, bingo marker chips, or even bingo blotters)
2. The "caller" places all draw tokens into a hat, bag, or similar and blindly picks one at a time, calling out the name of the object pictured and showing picture to players. As each token is called, players place a card marker on the picture (if it is shown on their card; not every card shows every picture).
3. The first player to have five tokens in a row wins. Side-to-side, up-to-down, and diagonal are all valid ways to win.
